

Privacy Policy

First off, thanks for reading this — we realize most people don't, and you probably care, so we have made these as easy to read as we can.

Cashmate does not collect any data that can be used to identify or contact a specific individual. To be specific, we do not have advertisers, nor do we require an account to use the app. All of your app settings are stored on your device, but may also be stored in iCloud so that the data syncs to your other Apple devices. Cashmate does not collect, store, or share any data with any third parties.

Protecting your privacy is important to us.
