Privacy Policy

First off, thanks for reading this — we
realize most people don't, and you probably care, so we have made these as
easy to read as we can.

When you first launch Clipsy, we ask you for access to your photo library so
we can read your photos and modify them. Photo data is extremely sensitive,
and we believe it's important for you to know and understand how Clipsy
deals with that data.
Clipsy does not collect any data that can be used to identify or contact a
specific individual. To be specific, we do not have advertisers, nor do we
require an account to use the app. Clipsy does not collect, store, or share any
images with any third parties.

Protecting your privacy is important to us.

APP ANALYTICS

We use App Store Connect and RevenueCat to improve the app. Each
provides us with anonymized and generic usage and or transaction data that
we use to inform our product decisions and understand how people are using
Clipsy.

CONTACT US

If you have any questions or concerns about these privacy policies, please
email useclipsy@gmail.com.

CHANGES TO THIS POLICY

We may, in its sole discretion, modify or update this Privacy Policy from time to
time, and so you should review this page periodically.

This Privacy Policy was updated on October 28, 2020.
